

Print Your Own Cable Labels on Standard Laser Printer

Sharpmark is the leading UK Supplier of labelling solutions with the labelling systems designed, developed and manufactured in the UK

Features:

- Self-Laminating, Wrap-Round Style
- These cable labels are designed to wrap round the cable, laminating it as they are applied to create a durable, easy-to-read cable label.
- They are designed for printing on a laser printer, the top third of our cable labels being the print area, and the bottom two thirds of our cable labels are clear polyester which over-laminates the printed part once applied.
- Made from adhesive polyester.
- Supplied on A4 sheets suitable for all standard office laser printers

Technical Specifications

- Label Material: Matt transparent polyester, laser printable.
- Adhesive: Permanent acrylic, specially designed for synthetic face materials, with excellent clarity, UV stability, good water resistance, good adhesion and good heat resistance.
- Minimum application temperature: +5°C
- Service temperatures: -20°C to +100°C
